The Company recorded net income of \$2.4 million, or \$0.10 per share. Cash and cash equivalents at quarter end totaled \$35.2 million. The Company produced 11,536

ounces of gold during the quarter. The Company maintains its 2021 Annual Outlook, targeting 40,000 gold ounces (a range of 36,000 to 40,000 ounces).

\*Average realized metal prices include final settlement adjustments for previously unsettled provisional sales. Provisional sales may remain unsettled from one quarter into the next. Realized prices will therefore vary from average spot metal market prices upon final settlement.

Mr. Jason Reid, CEO and President of Fortitude Gold, stated, "We are very excited to report Fortitude Gold's first quarterly results as a standalone public company. Our cash balance grew by \$7.4 million over year-end 2020, or 27%, while our all-in sustaining cash cost dropped to \$575 per gold ounce. The Company successfully completed staffing up as a one hundred percent standalone entity post spin-off which required non-recurring stockbased and onboard incentive compensation. Had we not sustained these onetime quarterly expenses, our net earnings would have been substantially higher. The Isabella Pearl Mine today is generating a substantial amount of cash for the Company, with production costs projected to drop even further in subsequent years. These sizeable cash flows are expected to fund significant Company exploration and development projects as well as monthly dividend distributions to shareholders. This strong quarterly performance allowed the Company's Board of Directors to initiate a \$0.02 monthly dividend in April 2021 and increase it by fifty percent in May 2021 to \$0.03 per month, or \$0.36 annually."
